ABOUT ME

Software engineer with a background in marketing and a human-centered approach to technology.
I design solutions that balance logic, creativity, and purpose.
I believe in technology as a bridge between real needs and meaningful experiences.
I blend analytical thinking with strategic sensitivity.
My code aims to leave a mark—beyond the screen.

EXPERIENCES

JA México
I can program | September 2023 - November 2023

- In this program, topics and technologies were taken up to develop a website, the different colleagues were supported in the creation of their first web pages based on the most basic technologies to start HTML, CSS and JavaScript.
- The content was developed virtually in 6 modules on the JA platform.

Microsoft
virtual innovation | August 2022 - December 2022

- Full-Stack Developer Trainig Program by Launch-X,
- Technologies used **FronEnd** (HTML, CSS, JAVASCRIPT, VUE JS, Nodejs), **BackEnd** (Mysql, Mongodb, Azure),

Accenture / JA México
GetApp Program | April 2022 - July 2022

- A high-level training program to improve your professional profile and develop skills such as: design thinking, teamwork, negotiation, leadership or innovation.
- **Program objective:** Generate a mobile technological application project (an App), through the application of specialized tools that support its creation, so that the participant knows and understands the process and the elements that must be considered for the elaboration of a comprehensive project.
